I Nicole Munn, strongly oppose the extension of the PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS) AMENDMENT BILL 2022.

The following Acts do not need further extension:

- amendments to the *Public Health Act 2005*
- amendments to the *Corrective Services Act 2006*, *Disaster Management Act 2003* and *Mental Health Act 2016* to support the public health response;
- *COVID-19 Emergency Response Act 2020*

These Acts are placing undue and unwarranted amount of financial, emotional, physical and social stress on the people of QLD.

The Acts are already inappropriate and take away the people's sovereignty and freedoms. The lock downs, mask wearing and vaccine mandates have already caused enough damage to the people, more damage than Covid 19 itself have or would have caused without these Acts. These Acts are bad for people's health, making people more unhealthy and vulnerable than they would be without these restrictions.

No virus warrants treating the people as slaves and inhumanely as the QLD government already has, even though this virus is only mild, and with each "variant" gets weaker. The people do not need you to tell them what to do, or how to protect themselves. Drop this Bill, and let the people decide what they want to do by giving them a choice.

I state again, that the Public Health and other Legislation( extension of Expiring Provisions) Amendment Bill 2022, not be passed or implemented

Yours sincerely ,

Nicole Munn
