To whom it may concern

This letter is to express deep concern for the emergency powers being extended by a government who has overtly crushed our economy, caused suicides, loss of business and destruction due to mandates and over reach because of the covid situation

There have been more deaths annually from a Common cold, as sovereign tax paying citizens we express our right to freedom and personal choice over our lives

The economy's has been obliterated due to disease which we are 98.5 percent able to recover from. I am embarrassed to be a Queensland resident and our children will be paying for the mistakes made by your government

No more !

We do not consent nor do we consent to the government extension emergency powers, we vote no trust

We vote for the truth to be revealed over deals made during the covid pandemic and hidden reports and medical information

Sending health and happiness

Vanessa Nixon
