To whom it may concern.

My name is Caitlyn Lindsay and I am writing this email to express my objection towards the passing of this Extension of the Emergency Bill.

I am objecting it because I see it as unnecessary given the vaccination rates are high. Also the gross exaggeration of Covid data throughout this whole pandemic shows that this is about control not public health. These mandates have caused disgusting segregation within communities. We should be well past mistakes like this as a human race.

Finally I have been personally affected by these mandates. I am pregnant, the mandates came into effect when I was approximately 15 weeks. I decided I would avoid this new and still quite unknown and experimental vaccine for the safety of my unborn child. This has caused my job loss as I was working full-time as an early childhood educator (an industry that really can't afford to lose educators). This has greatly impacted my and my husband's income as we prepare to welcome a new life into the world. It has caused unnecessary stress and feeling of segregation and aloneness from the community as I haven't been allowed to go places.

Overall, I cannot express how much I object this extension.

Kind regards,
Caitlyn Lindsay
