Dear Sir/Madam

I wish to send my concerns and views and strongly disagree for the proposed amendments to the Public Health Act Section 38 of the Human Rights Act 2019 of which is due to expire on the 30<sup>th</sup> April 2022. This takes away the freedom of choice as is currently imposed to the citizens of Australia on top of this it has created a discrimination in our society of which is not the Australian way our ancestors would be ashamed and the diggers that fought for our freedom would also be discussed. What has happened to this country! We should have the right to make our own choices of which effect our life's.

I have a [REDACTED] whom did what your government required by way of having two Moderna Vaccinations leaving her with Tremers and in a wheel chair leaving her unable to walk for four / five months now with the PA Hospital and the Mater Hospital in Brisbane giving reassurance of treatment hence nothing has been given. No in home help, No NDIS and No support and left our to dry like so many others with other side effects. Government is easy to pump out the vaccinations however not taking responsibly for duty of care on the ones with the permanent disabilities from these so called safe drugs.

People have lost their jobs and lively hoods due to these mandates, it is bloody discussing, sorry for getting away from the relevant issue in hand.

Hence to say I strongly disagree for temporary measures which are proposed to be further extended as below stated, as we as society have rights too to make a freedom of choice and not be imposed with these decisions :

- amendments to the *Public Health Act 2005* to increase powers for emergency officers and the Chief Health Officer to limit, or respond to, the spread of COVID-19 in Queensland, support testing and quarantine requirements and authorise other public health measures;
- amendments to the *Corrective Services Act 2006*, *Disaster Management Act 2003* and *Mental Health Act 2016* to support the public health response;

- a head of power in the *COVID-19 Emergency Response Act 2020* to make regulations to facilitate transitional arrangements for the temporary framework.

This nation has been divided via government and media whilst our so called leaders seek in amendments and rulings while deferring our attention to other issues at hand whilst giving bribes by way of money or sweeteners to seduce the public while they underhandly submitting and rulings these amendments to our laws behind closed doors.

I, like many others are wanting our rights back and freedom of choice as we once had. I hope this email is not in vane and is taken into consideration.

Thank you for reading this email.

Kind Regards

Sylvia Turpin
