To whom it may concern,

I am pleading with you, as a concerned citizen of Queensland, and Australia, NOT to extend the Emergency Powers, as currently proposed, to the 31<sup>st</sup> October, 2022.

This is absolutely insane, and can not seriously be considered! I am speaking for many of my friends and family (who will not send in an email, but who are just as outraged at this proposal as I am).

We're not seeing tens of thousands of people dying of this flu type virus in Qld daily, or even weekly; people who do contract it, get over it fairly quickly, and from what I'm hearing, it's not even as bad as the flu; thousands AREN'T being rushed to hospital and are not on ventilators... it's beyond comprehension that the Govt still wish to wield their authoritative stick at us any longer... these mandates have to end!!

If less than 1% of people who contract covid, actually die, then I don't understand why the government are still in panic mode ... that means over 99% WILL RECOVER. And as more and more information is released daily, very few people are dying of the actual virus, but rather, they are already sick with other ailments & conditions, and happen to contract covid which becomes an added burden on their immune systems (as would a flu) ... so they're dying WITH covid, not actually because of it. We're ALL waking up to the lies, and mis-information.

I can not stand how, you, the Government have impacted my life, and the lives of my family. It's horrendous. I feel like YOU have a gun to my head and are saying, 'take the jab, or you cant work'; 'have the vax or you cant go to your favourite restaurants and cafe's anymore'; 'be injected with this experimental serum or you cant see your elderly parents interstate'... etc. It's beyond belief. Oh, and the most insane part of it is – the jab isn't stopping the spread of the virus – the injected are still getting sick from covid and still transmitting it!! It's beyond comprehension, that you think we the people are ok with how you're running things – because we're not!!! Oh – lets open up Qld to the rest of Australia – but only the jabbed can come in – and the transmission figures went through the roof ...It was the vaxxed who were spreading it!!!! You think we cant see this?? You think we cant see that your attempts to control the virus, and the people is an epic fail!!! This has to end.

And because of your ridiculous mandates, I'm allowed to go to Coles, but I cant go to the Coffee Club; I can shop at woolworths, and go to the markets, but I cant go to a restaurant with friends. I can go to the Doctor, but am made to sit out in the corridor, like a Leper. It's disgraceful. The segregation and discrimination is disgusting and unnecessarily hurtful. It even impacts which jobs I can apply for. I've been living on vapours for a while now, and I'm over it. Absolutely sick and tired of living like this.

These mandates, and the Emergency Bill can not continue.

Tanya Wallace
