To our Health Minister,

It's time to end the mandates and the state of emergency and get on with rebuilding our country and economy. With recent floods and overseas conflicts it's clear that it's time to end the state of emergency and get on with the business of rebuilding lives. I appeal to you as a member of the public end this state of emergency now. Let those who wish to be vaccinated do so and those who don't then let them get back to life of serving the public in the jobs the once had.

Regards,
Lance Garlick.
