Dear Community Support and Services Committee

It is extremely concerning that our Queensland government is looking to extend the State of Emergency until October!!

What in the world is going on??

We are seeing so many countries now relaxing ALL mandates and restrictions, but here in Australia it is the opposite!

So many small businesses have been struggling since Lock downs were in place.

Is

this really what government want to see happening? The time has come for life to return to relative normal, although life may never be exactly as it was before, we need to let everyone get back to some type of normality.

People,

whom for whatever personal reason, have chosen not to be vaccinated, SHOULD NOT BE PENALISED ANY LONGER. They have bills to pay, children to feed and WANT TO RETURN TO WORK.

There are thousands of professionals who want to go back to doing what they love and are good at. THE

TIME IS NOW to put an end to segregation and the mandates which are not serving any useful purpose now that masks are off and international borders are open.

Extending

the State of Emergency just paves the way for restrictions to continue and many people will not cope.....lives will be lost, homes will be lost and for what genuine purpose??

Queensland

government has lost touch with everyday Aussies, and things need to change for the benefit of all in our state of Queensland.

PLEASE stand up for the everyday people before this SOE is extended.

Regards

Carole Lemon
