

To whom it may concern,

I strongly disagree with any extension of the current emergency bill.

2 years ago, qualified and educated specialists worldwide pointed out that the proposed mandates and lockdowns would be ineffective and cause long term negative outcomes ,far outweighing the alleged severity of people being affected by the covid virus. See Barrington Declaration.

This prediction has now been fulfilled, as the government has continued to ignore health advise from the most qualified in the health sciences , instead promoting only one solution in a mass vaccination program with “emergency approved “untested vaccines, based on never before used gene technology.

Not only have the vaccines been proven to be largely ineffective ,but also very dangerous with a wide range of severe side effect’s including many deaths.

Our economy also has suffered from ineffective lockdowns, creating long term damage that will affect many Australians that have been betrayed by their government!

Why are doctors forbidden to prescribe alternative, proven to work medications to counter act Covid?

Why are doctors disbarred because they inform patients of dangerous side effects of the mandated vaccines?

Why are doctors prevented to issue medical exemptions ?

Why are people forced to accept untested vaccines or loose their jobs?

Why are people censored that try to question the agenda and propaganda the government is currently trying to push on all Australians.?

Enough is enough!

**NO MORE EMERGENCY BILLS !!!**
