Hello,

As an Australian citizen and a resident of Queensland, I am writing to you today to canvass my opposition to the state of emergency being extended in Queensland.

We have had covid on our door step for 2 years now. It is part of life. But these mandates are not. They are tearing families apart, ruining peoples lives and mental health.

Absolutely nothing good has come from the SOE being extended over and over. The government needs to back right out of people's lives and let them be. Let parents decide for their kids and let adults decide for themselves what is right for them!

If the SoE is extended, the Queensland government will wholeheartedly confirm to the people that they are tyrannical and controlling and I can almost guarantee that the politicians that currently have a seat, will no longer come the next election.

Its time the premier quit listening to her handlers and about time she listens to the people, after all, it was the people that trusted her to do no wrong.

Please feel free to contact me if you need to clarify anything. However for the sake of clarity and my huge mistrust in the system and government, I OPPOSE ANY EXTENSION TO THE STATE OF EMERGENCY.

Regards
