We the people of Qld say NO to the extension of the State of emergency. The science does not support this. This is about control and nothing else. This government for the last two years has put this state through hell, it has destroyed small business, people have lost their careers, their lives, families have been ruined, through these draconian unlawful mandates, the police have been used by this government as their own personal thugs to shut down businesses and fine people for not wearing nappies on their face. ENOUGH, end this unlawful draconian state of emergency NOW,
