To whom it may concern,

I wish to express that I Belinda Wallbank wish you to STOP THE USE OF EMERGENCY POWERS in Queensland.

We are NO LONGER in a pandemic and to reinstate these powers would be an absolute abuse of the people and severe abuse of power.

Citizens have had enough. If we keep pushing people it's going to get ugly very quickly and that is NOT the Australia we love and know.

The politicians have not acted accordingly nor in mind of everyone and many will be coming under review for their horrific behaviour impacting millions of livelihoods. You can stop it being made worse.

END ALL POWERS. END ALL MANDATES. Let Australia be great again!
