Subject: Submission on Public Health & Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022
Date: Sunday, 6 March 2022 9:13:19 AM

Good morning

I am writing to express my opposition in opposition to the Public Health & Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022.

There is absolutely no need to prolong these emergency powers. The COVID-19 crisis is now behind us, people have mostly complied with the massive government overreach for two years now. It is time to end them immediately and not continue this tyrannical insanity.

The government has rolled out the vaccines, people have had ample opportunity to be vaccinated if they wish. The experience since the vaccine mandate came into effect in December is a massive surge in cases and so the vaccine mandate was shown to have been a completely useless government decree.

So I understand that in the early days of the fog of the pandemic, the government emergency powers were required, but two years later they cannot be justified.

Please end all emergency powers now.

Regards,

Daniel Torbey
