Extension of emergency powers.

Please understand that I object to this continuance of these emergency powers. Enough is enough. Emergency in my mind should be about the catastrophic flooding we are in the midst of. Certainly not for you to continue dictating our lives, as you have for the past few years.

As a pensioner I am over not being able to think for myself, or to go away for even a few days, because of the constant worry that with these powers you will close borders, or worse ban us from returning home if you do.

You have decimated small businesses, people's wedding plans, family funerals, pensioners right to eat out if they wanted. The list goes on and on. Your mandates are unbelievable, and I'm sure not truly legal. You have pushed these measure to completely take over our lives.

Stop this madness immediately.

Enough is enough. I will not, no matter what you do, get an experimental drug placed in my body. You need to know there are still some of us that use their own brain, can do their own research, and just want to get on with life. Stop and desist with these emergency measure immediately. You push the agenda of follow the science, might I suggest you practice what you preach.

Yours in the hope that common sense will prevail at long last Elaine Chadwick
