

4th March 2022

Committee Secretary
Community Support and Services Committee
Email: cssc@parliament.qld.gov.au

Dear Committee Secretary,

**RE: PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS)
AMENDMENT BILL 2022 (BILL)**

I **do not** support the Bill or the extension of the State of Emergency.

Given the last 2 years this State has been under the SOE, the implementation of an SOE has now proven to have provided little to no benefit but has in fact contributed widely to the destruction of people's mental health, general health, loss of income, loss of business and the destruction of the community.

The people of this state have been bullied and coerced under the guise of 'Public Health'. The continued extension of the SOE has allowed the continuation of the bullying, coercion and traumatising of the people of Queensland.

It would be nothing short of madness to insist that an SOE remain in this state or any state of Australia and only further proves that this government care nothing for the people and would rather continue their reign as tyrants and dictators. The plandemic and its subsequent public health emergency is over.

I think it is important to remember that as a democratic society, politicians are voted in by the people to serve the people, not the other way around.

Does the Queensland Parliament in fact have the authority to implement such a Bill?

I ask the committee to genuinely consider the necessity of the SOE and the continued abuse of the people of this state and that any participation in the support of such a Bill sends a clear message to the people that they are traitors and lack the courage to support the rights and freedoms of the community.

The people are watching, we will not forget the abhorrent treatment inflicted on the people of Queensland by the Queensland Government.

Regards,
