I do not support the Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022 (Bill), which will allow the State of Emergency in Queensland to be extended to 31 October 2022

The pandemic has passed. We are now in endemic phase. The vaccination rate is above 90% - an incredible threshold. There is no need for excess use of powers now. People can manage their own health choices. Our health system has done extremely well throughout the pandemic phase and our resources should now be directed to other urgent matters such as flood recovery.
