Subject: I DO NOT want an extension to the Emergency bill.
Date: Friday, 4 March 2022 7:05:10 AM

To Our Elected Officials,

I DO NOT want an extension to the Emergency bill.

I DO NOT support the Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022 (Bill), which will allow the State of Emergency in Queensland to be extended until 31 October 2022.

My reasons are:

Certified Data

According to the latest figures from the [COVID-19 Mortality in Australia | Australian Bureau of Statistics \(abs.gov.au\)](#) (January 2022) there has been a gross exaggeration of the Covid19 data on death reports.

The data states that 273,901 Australians died between March 2020 until the end of January 2022 .

Of these, only 0.9% actually had Covid19

There were 2,639 Covid19 related deaths in this period.

In the same period;

100,000 Australians died from cancer.

32,000 Australians died from heart disease.

30,000 Australians died from Alzheimers and dementia.

10,000 Australians died from diabetes.

The average annual number of deaths due to influenza and pneumonia between 2015 - 2019 was 2,908.

The median age of death of those who died of Covid19 was 81 for men and 86 for

women. Both are above our National life expectancy.

92% of the 2,639 Covid19 related deaths had other underlying health issues; an average of roughly 3 diseases or conditions per person. These conditions ranged from pneumonia to kidney infection right up to the biggest risk factor of all – heart health.

In December 2021, a judge ordered Pfizer to release documents concerning adverse events from their Covid19 “vaccine,” *which Pfizer fought to have concealed for 55 years*. The very first release of 500 documents contained information entitled, “Cumulative Analysis of Post-Authorisation Adverse Event Reports.” The document revealed that *within 90 days after the Emergency Use Authorisation release of Pfizer’s mRNA vaccine*, the company was already aware of *voluntary* adverse reaction reports that revealed **1,223 deaths and a total of 158,000 adverse reactions**. And yet, despite this information being released, the government and mainstream media were silent, neglecting to report these findings and continuing to peddle Covid19 “vaccination” as “safe and effective” and the only way out of this pandemic.

Children are now the target of these experimental injections, despite an extremely low Covid19 Fatality Rate (CFR). As at 3 March 2022*, in the 0-9 age group, there has been 209,996 cases of Covid19 reported. Of this age group, 4 deaths from Covid19 have been reported. **That is a CFR of .002%**. And yet our government and media continue to propogate that Covid19 vaccination of children is *safe and effective*. More effective than a .002% fatality rate? Innocent children with their futures ahead of them are being injected with an experimental and potentially harmful – if not lethal – toxin, with no long-term safety data and *little to NO efficacy*.

The records from the Australian Bureau of statistics along with the Australian Department of Health Covid19 case statistics, expose the overblown propaganda scare campaign we have all been subjected to.

Time is up. This is ENOUGH. This 'Emergency Bill' has destroyed health. It has destroyed the Australian economy and it has destroyed lives and will continue to destroy lives and livelihoods for many decades to come.

Mandates are nothing but draconian measures designed to remove our freedoms, control the population, and destroy lives. In time, we will look back on this period of history in shame, for how these mandates destroyed so much, segregated families and society and above all, worsened the physical and mental health of Australian citizens.

Thousands of Nurses, Paramedics, Police, Fire Fighters, aged care personnel, teachers and many more have lost their jobs for refusing to participate in a trial medical experiment. Thousands are being censored from providing professional medical opinions.

Enough damage has been done. It is time to stop the emergency bill, the draconian mandates, the lies and propaganda from governments and the mainstream media that has been used on the Australian people for the past two years.
