Good afternoon,

Please see below my response to the proposed extension of the Emergency powers until Oct 2022:

There is no public health crisis warranting this extension, thousands of medical professionals have supported [REDACTED] in commencing Nuremberg 2.0 trials attesting to this fact. All Governments including the [REDACTED] have refused to respond appropriately to pertinent medical and societal knowledge regarding the Covid crisis as it emerges, remaining steadfast in one locked position; or have been willing to meet with concerned Australians in Canberra in recent times. I have zero confidence in any decision making capacity of any Australian Government, which includes the lack of discernment demonstrated in the submission to extend Emergency Powers until October 2022 in what is obviously at best an over-reaction to cold and flu symptoms, and at worst, an ulterior agenda which does not involve the well-being of Australian patriots.

Kind regards,

[REDACTED]
