Subject: New laws for tenants

I am an owner of an investment property in Hillcrest Logan & I just want to say I do not agree with the 24mth rental increase as well as the minor modifications to my own /worked hard for house/ that may leave damage to my property when leaving, even pets is a problem,my tenants currently have pets but they are 1 small dog & a cat, I would not like it if they have a lot of each or even large dogs,I would be willing to go without tenants until I am happy as I am the owner,this as well as other items on your list should be up to me as I am the owner & as I stated before worked very hard for this, it is a townhouse also ,so I need them to know they have to play by certain rules as to keep close neighbors happy also, please don't take away our rights,why change what's not broken, yours sincerely Darrin Beech
