To whom this conducts this.

I am trusting that this reaches the person who is responsible for this review. I make my income solely from rental propertys, which I own outright, do not negative gear, and maintain by mostly my own effort. The rent is collected, and tenants vetted, by an agent, licenced by Qld.Gov. propose that the stated aim of the review, judging by the current 1 _4 points is a fraud. None ot the stated points improve my ability to provide for myself in the future, as I understand their intent.

I seek to contribute to committee deliberations in this matter, as I believe my interest is not being handled fairly, and believe there could be others with a similar outlook on this review.

Sincerely

Peter S. Penfold
