**Speed enforcement:**

1.Placing cameras in KNOWN BLACK SPOTS NOT where they will gain most revenue. 2.Yes. Covert placement will only reinforce the revenue raising opinion.

**Fixed speed cameras:**

3.Not at all. 4. Put them in KNOWN BLACK SPOTS. 5. No.

**New technology:**

6. Yes and raise revenue for being just over the limit. When no cars speedo is accurate. The mantra"its the drivers responsibility to make sure the speedometer is accurate" is just a cheap co-out. 7.No 8.Better driver training. VISIBLE police presence on the roads.

**Comments:**

How about incentives for good driving ???? eg : get credit points for each year of no demerit points. Reduction in rego, Their needs to be incentives for good driving..its too medieval the current situation, just punishment, no reward for good behaviour.
