**Importance of grey nomads to the Queensland economy:**

1. What economic contribution do grey nomads make to rural and regional areas of Queensland?
2. Are the available statistics on grey nomads in Queensland useful, current and accessible?

1. Shop in towns where we can camp. Keep the area clean and tidy. Support the area and enjoy the local people. 2. I'd like an update. We haven't been for a couple of years but going this year and enjoy the outback and rural areas.

**Infrastructure requirements:**

3. What are the public infrastructure requirements of grey nomads including health services, waste disposal sites and signage?
4. Is the current infrastructure for grey nomads in Queensland adequate? What additional infrastructure is required?

Every state is different, and haven't been for awhile

**Government coordination:**

5. What are the major issues relating to the regulation of Queensland's camping and caravan parks?

Cost, some people just cant afford to pay big money and thats why some have a mtoor home. I think one of the main regulations to have is an onboard toilet which most campers have, although not always the rentals. This causes us some concern, the cheap ones.

**Marketing and promotion:**

6. What is the best method of marketing Queensland's rural and regional communities to grey nomad tourists?

Information centres, some dont want to know you if we ask for camping, free or lost cost. CMCA site, chapter meetings, computers.

**Utilisation of grey nomad skills in regional and rural Queensland:**

7. How successful have existing programs been in utilising the skills of grey nomads in rural and regional Queensland?
8. What can the government do to encourage grey nomads to use their skills by undertaking work in rural and regional areas?

The Camps book have been good, CMCA, some info centres.
