Submitter Comments:

Our school's P&C works tirelessly to generate funding for school and student essentials.... as well as managing and financing all of the community events (like fates, cultural events, movie nights, prep bbq's etc etc), these events are whats barely holding the local community together... which has been much tougher since covid. That burden is becoming too much for individual working parents to maintain.. the responsibility has become so great that parents are dropping out with noone to replace them.... we really need state schools to be fully funded by the govt.
