Good morning

We need the right to do what is best for our children. Please don't remove our rights. I have four children ages 19 to 7 .my 19 year has 2 cert 2 ,4 cert 3 and cert 4 and is working full time.my 17 year old went to uni at nearly 17. my 15 year is special needs and has cert 2 and nearly finished cert 3 animal care. We fell into homeschooling when my daughter wasn't safe at school. My children wouldn't be where they are today following the Australia curriculum

Please leave our children to be who they are and work on their dreams and futures. For my special needs child I couldn't have followed. My others i could have but it would hold them back so why would I ?

Regards

Rebecca wood

Good afternoon

We don't want to use the national curriculum because homeschool allows us to do our very best for our children. What adjustments special ed are included ?please leave us to raise our children!!

As mum off four 2 special needs I wouldn't have been able to follow for one she is asd 3 with II. she is nearly 16 with her cert 2 animal care running her on business and 2 practical days off her cert 3 animal care left. Been child led has allowed her future.school failed her so badly .Please don't risk mental health off children.

My 17 year when to uni with 7 credit at 16 so yes I could have held her back and followed national curriculum but why would I hold my child back ? As a mum I want to best adult life possible.

My youngest has CP and would need a lot of adjustments homeschooling allows him to successful safe and learn.

I can't report on academic progress across all subjects every year because my time need to go into my children not reporting to people who don't know or understand my children !

I object to the guiding principle of proving that homeschooling is in a child best interest of my child because school wrote my daughter off and couldn't keep her [safe.it](#) wouldn't have been possible to do worse !! They are our children please leave us to raise them!

Last concern home Ed unit over worked took weeks for a box to be ticked for tafe at school and they are so over worked they cannot keep up or answer phones .
