### Submitter Comments:

Dear Madam/Sir As a parent to young children I have witnessed a range of educational opportunities for many children around me. There are children who thrive in the education system and there are children who do not. There are children who thrive with schooling at home using a curriculum and there are many who do not. Leaving the options available to parents who live and breathe their children's needs and abilities is the best practice. I oppose the proposed legislation bill for the following reasons. A carer is not an appropriate definition of high quality learning child safety is not the role of the home education unit to monitor and we don't need it be held to a higher standard than any other family with children just because we homeschool parents need time to create an annual plan when leaving the school system, provisional registration provides safety for families suffering school trauma Please listen to your homeschool community. Thank you for listening.
