Dear Committee

I strongly object to the proposals in the Education Bill 2024 regarding changes to homeschooling:

- 1) Requirements for parents providing welfare statements – parents know their kids best. The exception should not govern the rule.
- 2) Removal of provisional registration – decisions for safety and mental health may need to be made quickly, so provisional registration is essential. Because mental health matters
- 3) Compliance with the national curriculum doesn't allow for different abilities and schooling of multiple age groups. Individual kids need individualised learning.
- 4) Increased reporting - reporting on all subjects is unreasonable

I am a grandmother of homeschoolers, and I can see that they are all thriving from it.

Thanking you
