Submitter Comments:

Dear Committee, I object to the following proposals in the Education Bill 2024. As a home educating parent I do not want to use the National curriculum because I believe it is limiting and does not meet the needs and interests of my children. I want to have the choice to if/how we use the curriculum. Also the proposed reporting requirements will create extra work for HEU and myself. Lastly, I disagree with the removal of provisional registration. I believe this is unfair for families that may need a quick exit from school and doesn't allow sufficient time to produce an education plan to the new standard required. My children were born with a desire to learn and grow deep in their hearts. All I am asking is for the freedom to choose an education plan that suits the ever changing needs, interest and readiness of my children. Thank you for your consideration.
