I feel that a parent is the ONLY person that has a child's BEST interest at heart and not the government or an organisation. I think that the current curriculum/school system does not provide the education so children learn to be well rounded and resilient people. I do not believe the school system provides the safety to students that once was. They have lowered the standards of acceptance of teachers and I strongly believe this has impacted the education of current students. THERE MUST ALWAYS BE A CHOICE FOR PARENTS.
