Submitter Comments:

My name is [REDACTED] homeschooler and my mum is typing what I say. I disagree with the changes to the education bill 2024. I like the way we homeschool because I can learn about things I like. I homeschool EVERYDAY and like how we learn! I don't like sitting down and working on books they make me feel angry. Thank you [REDACTED].NOTE: [REDACTED] is a 9 yo child with Autism and anxiety and many learning difficulties. He becomes extremely overwhelmed, anxious and has a lot of trouble with emotional regulation when presented with any form of formal learning. He learns best being able to follow his hyper fixations and interest. Within these we can find many learning opportunities to add maths, English and other relevant learning areas. He is one of the 80% of children that DO NOT use the Australian Curriculum but have a HIGH-QUALITY EDUCATION through an individualised learning plan I put together to ensure his needs are met. He would not be able to cope with the workload and it would cause great emotional and mental distress to him and our family.
