Dear Commission Members,

The learning that we are doing at home is better because it is fun, and I get to learn what I want to learn about. This is important because I can come up with new ideas, so I can look for clues if I don't know something. When I was at school I found it hard because I was trying to think so much. It was boring and hard for me to do schoolwork. So we made up our own program so it would be exciting for us to learn. I want to learn now. I want to do writing my way and I want to learn to spell now too.

Please let us do our own program and choose what is best for us to do.

I do not wish to have my details made public record.

These details have been used in a previous submission, I (his mother) made a submission last week. My son wanted to have his "say to the government." Please add this to my previous submission or take as a new submission.

Kind regards,
