To the Education, Employment, Training and Skills Committee,

I am writing to object to the Education (General Provisions) and Other Legislation Bill 2024 in the current form. I have specific concerns with the implications of Clauses 18, 64 & 68 and I am in support of the Free2homeschool Movement.

This will have a direct impact on all children who learn in a different way to the traditional methods of teaching. I believe children have an innate desire to learn and we are there to guide them in what ever that may be at any age not what is outlined by the guidelines of ages set by the government , restricting them in their freedom of choice when it comes to educating their children, therefore having a detrimental effect on thousands of children across the state. Kind regards,
