### Submitter Comments:

Leave our kids out of your woke [REDACTED]. The government is supposed to spend our tax money on the best interests of the people that pay them, not the interests of the big corporations. I'm calling on everyone as many people as possible to stop paying tax until this government listens to the people it's supposed to represent instead of bringing communism onto us. The government is supposed to work for us, the people, not the other way around!
