**Submitter Comments:**

I lived in Qld for over 30 years. I then relocated to NSW. I have noticed that Steiner schools are far more available and accessible in NSW. I believe easy access to Steiner education has greatly reduced the need for parents to home-school in NSW as it offers a wonderful alternative to the Government Public system. I believe offering more accessibility to Steiner education in Qld could help with reducing the home-schooling numbers in Qld and should be considered as an option before changing home-schooling regulations.
