To the Education, Employment, Training and Skills Committee,

I am writing to object to the Education (General Provisions) and Other Legislation Bill 2024 in the current form. I have specific concerns with the implications of Clauses 18, 64 & 68 and I am in support of the Free2homeschool Movement.

This will have a direct impact on many children who are thriving in their homeschooling environments away from school as I have witnessed over the past 20 years, whereby they are allowed to explore topics of interest and spend as much time as required on these said topics; which is whole idea of not being in school. Most children thrive away from school and when given the opportunity, they find their own way of learning away from the constraints of following a certain curriculum.

For parents, this new legislation will be restricting them in their freedom of choice when it comes to educating their children, therefore having a detrimental effect on thousands of children across the state.

Kind regards,
Allanah Green
