To the Education, Employment, Training and Skills Committee,

I am writing to object to the Education (General Provisions) and Other Legislation Bill 2024 in the current form. I have specific concerns with the implications of Clauses 18, 64 & 68 and I am in support of the Free2homeschool Movement.

This will have a direct impact on both my children, who both have extreme learning difficulties. My 13 year old son has a severe language disorder, dyslexia and Adhd. My 11 year old daughter is asd level 2 and has mild intellectual impairment. Both of my children struggle to retain information and thrive with a more "hands on" approach to learning and retaining information. To limit their education to Acara only, will absolutely be at a detriment to their learning outcomes.

I also am concerned at having to report in every area of the plan and PROVING educational progress.

This is not even required by schools, so I am a little bewildered as to why this is aimed at Home Schoolers.

This is restricting us in our freedom of choice when it comes to educating our children, therefore having a detrimental effect on thousands of children across the state.

Kind regards,
Joanne Evans
