To the Committee,

I am writing to object to the Education (General Provisions) and Other Legislation Bill 2024 in the current form. I have specific concerns with the implications of Clauses 18, 64 & 68 and I am in support of the Free2homeschool Movement.

I don't agree with having to learn to the Australian Curriculum in my homeschooling. It sounds very controlling in the way we learn when we already meet a high-quality education with our parents and with what they are providing us. I won't be able to follow what I want to learn with my passions and interests, and it does not allow for flexibility with the creative industries until after I get past all the other subjects that are of less interest to me. I would prefer to cover any topic I want in my way and be able to spend more time on my passions and interests toward my future career. Not being restricted in my freedom of choice when it comes to education, therefore having a detrimental effect on my learning opportunities.

Thank you for considering my concerns,
