Dear Committee,

I'm [REDACTED], a 13-year-old homeschooler, writing to express my disagreement with the proposed changes in the Education Bill 2024.

I am neurodiverse and need a diverse education! I do not need or want to follow the national curriculum, my parents spend a huge amount of time tailoring my education to fit my passions and capabilities which allows me to explore my interests while covering essential subjects like maths, english and science. Plus, there's always time for sports, hobbies and fun with friends!

I believe only my parents and I should decide my education.

Please consider my perspective.

Thank you,

[REDACTED]
