Submitter Comments:

I want to homeschool my children as I worked myself for 15 years in education. The quality in the system is declining. I know what is best for my children as I am the parent. Besides that, I want to raise them with high standards, making them strong and capable, respecting citizens and incorporate Vedic spiritual wisdom to navigate challenges that comes with life. Not letting them get dragged along with new age [REDACTED]. And I suggest as well, Instead of making things more prescriptive for homeschooling families, perhaps the Government should review the school system and find out why so many students are leaving it.
