To the Education, Employment, Training and Skills Committee, I am writing to object to the Education (General Provisions) and Other Legislation Bill 2024 in the current form. I have specific concerns with the implications of Clauses 18, 64 & 68 and I am in support of the Free2homeschool Movement. This will have a direct impact on children who are needing education at a different pace due to existing mental health issues like anxiety and depression - these children may need a slower pace through no fault of their own, and they should not be punished by it. Restricting them in their freedom of choice when it comes to educating their children, therefore having a detrimental effect on thousands of children across the state.
