Submitter Comments:

Many families are choosing to home school their children because the School system is failing the children. Many children do not feel safe at school and many are bullied. Many Principals and teachers are resigning or taking early retirement - why is that? Further the proposed legislation chapter 9, part 5, states the following; home education of a child or young person should be provided in a way that - (i)is in the best interests of the child or young person taking into account their safety and wellbeing; and(ii)ensures the child or young person receives a high-quality education; Who decides what is in the best interest of our own children? It's the parents that look after the 'best interests of their children' - Any legislation which takes the rights and decision away from the parents, is a direct attack on our freedoms and aimed at creating an environment in which the government has control over our families.
