SUBMISSION FOR DRAFT LEGISLATION HOMESCHOOLING

Dear Committee,

Please accept this letter as my submission for the draft legislation of Homeschooling

People are waking up to governments and how they want to control the population to achieve desired outcomes for the elite group of people running the governments behind the scenes.

This new draft legislation for homeschooling is another great example of the government trying to force the hand down on citizens.

We are meant to be a free country with free choices and this draft submission is trying to take away these rights. As I said people are waking up to this government control and we stand against it. We stand together to keep our right of freedom of choice!

Please see below my main points:

1. Parents should be able to choose a curriculum that works for their child
The National Curriculum is designed for large classrooms of children, not for a personalized teaching environment.
2. The current registration and reporting system are working well, there is no need to change it.
3. Instead of making things more prescriptive for homeschooling families, perhaps the Government should review the school system and find out why so many students are leaving it.

Thank you for reading my submission.

Kind Regards
Peter Murphy
