### Submitter Comments:

I have experienced mainstream school up until grade 6. The national curriculum, the way it is outlined, does not help me learn, and i struggled in the classroom. Ever since iv been homeschooled, i have thrived. I am incredibly academic. I am beyond the academics of my friends who attend mainstream school. If I were to follow the curriculum now, it would hold me back, I would be very bored, and it would be detrimental to my education.
