### Submitter Comments:

Parents should be able to choose a curriculum that works for their child. The National Curriculum is designed for large classrooms of children, not for a personalized teaching environment. My children require individual support due to their diagnosis and learning challenges. Freedom to teach children in their preferred learning style is important. The current registration and reporting system are working well, there is no need to change it. Instead of making things more prescriptive for homeschooling families, perhaps the Government should review the school system and find out why so many students are leaving it.
