As a home schooling mum of 2, I do not support nor consent to the suggested changes to legislation.

Instead of trying to make home schooling look like schooling, perhaps look into the reasons why parents do not want their children attending school. I home school as I have observed my eldest fall through the gaps in the system and I won't stand by and let it happen again with my youngest. The government does not know what is best for my children, myself and their father do and we will continue to home school the way that suits our children and encourages growth and learning not the way the government thinks it should be done.
