My family wish to have the freedom to choose Distance education in the form of Christian education! My children are unable to attend face to face learning in a school setting the schools are not equipped to support either of my children! Their health would decline rapidly as would their education! I prefer to have the support of DE rather than go it alone and homeschool with my own programme! Especially with the special needs my children have! My children did attend a normal school setting my son was so badly bashed and bullied all documented it made him suicidal at the age of 9!! He ended up needing and still requiring a psychologist because the school was incompetent! Our family suffered to terribly at the hands of the public system! Don't take away our freedom to chose and my children's safe place through Christian distend education where they are nurtured, celebrated, supported, understood, and given a better programme for them to be able to achieve their goals in their education journey! Don't make my children suffer anymore at the hands of those who chose to make unnecessary changes! This could have catastrophic affects on families and their children!
