Submitter Comments:

I am writing to object to the Education (General Provisions) and Other Legislation Bill 2024 in the current form. I have specific concerns with the implications of Clauses 18, 64 & 68 and I am in support of the Free2homeschool Movement. This will have a direct impact on the educational pathways my daughter has been able to carve out and pursue with my two grandsons. Their family follow the passions and strengths of the boys, working on their weaknesses consistently. Many topics they are covering so far are from higher grades than they are currently in according to the system and they are on track to have all sorts of qualifications between 14 and 18. The mental health of my grandchildren and daughter remains a priority throughout their week, as they intricately tend to Maths, Speech and Drama, reading, spelling, competitive Gymnastics, Music, Drama, the boys' businesses, diving, Science, studying History and Geography, etc. Insisting on the proposed changes listed as part of the bill will restrict my family in their freedom of choice when it comes to the education of their children. The impact of these potential changes would be negative and significant. Thank you, Concerned Grandmother
