Dear committee,

I have some points to make:

-Broken Education System and is failing Queensland Students.

-Education System (ACARA) has no room for struggling students to understand or catch up.

-ES and ACARA need to be taken back to the core basics, teaching English, Math and Science better.

-ES and ACARA need to be teaching more on climate, Indigenous and gender ideologies then on helping students with the 3 core basics.

-ES and ACARA do not help with bullying in schools, their soft touch approach makes it easier for bullies to get away with mentally and physically hurting other students.

I now love being home schooled, my mum wrote a program for me with Math, English, lots of Science, Art, and Music. I love my cello and would like to learn more so I can play at the conservatory of music in Brisbane.

I love that now mum has made it, so I have a child focus learning, with more freedom and no grading. I can spend as much time as I want on a subject such as space.

Please, please don't make us have to do ACARA with are homeschooling because it is better for us.

I don't have to worry about bullying anymore mum takes me to and OT to learn and heal.

Thank You
