Submitter Comments:

My submission comes out of some proposed changes which I personally believe will be detrimental to children's and parental rights to freedom of speech 1. Gender neutrality is only confusing our kids. We must ensure our rights to be heard and uphold both our children and parental rights and responsibilities if we so choose as a male or female. This may include refusing coerced vaccination to participate in school activities etc. Upholding our rights as a male or female without overnment forcing us to agree with ideologies we do not accept.2. Our laws must protect all and not just a minority group. We all have equal rights, privileges and obligations. Our laws should reflect this. No forced vaccinations and no forced gender equality laws. We all must have laws which protect and reflect our freedom of speech and right to choose.
