Subject: Objection to Education Bill 2024 Proposals
Date: Sunday, 24 March 2024 7:19:28 PM

Dear Committee

I object to the proposals in the Education Bill 2024. Specifically:

1. that homeschooling must be in the best interests of the child.
It is the parents' right to decide what is in the best interest of their child and they should not need to justify this to the government.
2. complete removal of provisional registration.
It is the parents' right to decide if homeschooling is in the best interest of their child and as such, should not have to wait for permission from the government. That is not the government's role. If the parent has deemed the school environment unsuitable for the child, the child should not be made to endure continual attendance at school for the (up to months) waiting period while the application is being processed and awaiting approval. This amendment makes it harder for parents to protect their children.

Regards
Lana Murray
