Dear Committee Members,

I do NOT support the proposed changes to the education legislation.

My 15yo grandson went to school as a fluent reader largely self taught. Relentless bored to learnt to hate school and was frequently in trouble. Now homeschooled, He pursues his internationally recognised course with enthusiasm and is unassisted. He is now happy, well adjusted and self motivated with his parents teaching him at home for the last two years. He enjoys learning the information required to prepare for his future.

Thank you for your attention and consideration.

Sincerely,
Gael Paterson
Concerned Grandmother
