Subject: Regarding the homeschooling bill
Date: Friday, 22 March 2024 7:29:25 PM

Dear Comitee,

I would like to bring my concern to your attention regarding the new homeschooling bill.

My partner and father to my children was homeschooled. And I wish I was homeschooled as I hated school and could never learn just being in a classroom all day. I lost interest very quickly and ended up dropping out in year 9. I wish for my children to be homeschooled as. We should be allowed freedom of choice when it comes to schooling our own children. I think there is no better way of schooling to be honest. And the homeschooling community is growing rapidly, as it should be! I would like to see more fair choices made for parents and their kids. Their learning ability and education is at the top of our lists as parents to ensure they reach their goals and have a good education. Please reconsider your bill as we need choices! I want the best for my children, they deserve it!

Thank you for reading!

Regards,
